

Dear Festival of Trees Supporter:

Thank you for your past support! Over the last 31 years, Festival of Trees has raised over \$3 MILLION improving and supporting healthcare programs in Gillette and Campbell County. Our success would not exist without the generosity of our community.

Over the years we have supported:

- Lifeline Emergency Response System that allows senior community to live independent and safe.
- Residents of The Legacy with two wheel-chair accessible golf carts to assist with access to nearby parks.
- Free flu vaccines to CCSD Students.
- Cancer Care Committee support to our local cancer community with financial grants.
- Scholarships to students pursuing healthcare education.
- Kid Clinic support with a state-of-the-art interactive waiting room.
- Close to Home Hospice Hospitality House support through construction and operational support.

We are counting on the support from donors like YOU to make this year even more successful! Please consider one of our several Sponsorship Opportunities.
